DETAILED ACTION

This office is in response to remarks and amendments filed October 13, 2009.

Claims 14-15 and 18 are pending.

Allowable Subject Matter

Claims 14-15 and 18 are allowed over prior art.

The above mentioned claims are allowable over prior arts because the CPA (Cited Prior Art) of record fails to teach or render obvious the claimed limitations in combination with the specific added limitations, as recited in independent claims and subsequent dependent claims.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a method and system for secure data exchanges in a collaborative multicast environment. Independent claims uniquely identify a distinct feature of an encryption application program executed on the multicast private network's router device, within the private network, encrypts the received multicast broadcast for transmission to user units that have requested the generated multicast broadcast. The feature of securing the multicast broadcast comprises sending a received request to join a multicast broadcast at a user system to an Internet Protocol (IP) multicast address; determining if the multicast address of the request to join is associated with a multicast broadcast IP address based on one of a table or map; receiving a multicast

transmission from a first computer system associated with the multicast address, wherein the received multicast transmission is encrypted, if the request to join is associated with a multicast broadcast address, then removing the multicast broadcast IP address; decrypting the sent multicast broadcast; attaching one of an associated or a local IP multicast address to the decrypted multicast broadcast; and sending the multicast broadcast to the user system requesting to join, thereby keeping unauthorized entities from gaining access to the secure multicast broadcast because knowledge of the attached associated or a local IP multicast address is only previously known to the first computer system and the user system.

An updated search did not reveal any prior art that would anticipate or make obvious the currently claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SYED ZIA whose telephone number is (571)272-3798. The examiner can normally be reached on 9:00 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz Sheikh can be reached on 571-272-3795. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
